

## Coronavirus Checklist

The following survey is to ensure that you are safe to continue lessons at this time. These questions are asked to all students participating in lessons until the concerns about the coronavirus has passed.

1. Have you been in close contact with anyone confirmed or suspected of being positive for Covid-19? \_\_\_\_\_
2. Do you possess any of the following symptoms? (circle one of the following in applicable)
  - Fever
  - Shortness of breath
  - Sore throat
  - Decrease of loss of sense of taste or smell
  - Unexplained fatigue
3. Have you traveled out of the country recently? \_\_\_\_\_
  - And if so, have you isolated for 14 days prior to your visit. \_\_\_\_\_

**If you feel you have been in contact with the coronavirus, please call your local healthcare professional.**

If you would like to stay in the know, I suggest downloading the following apps to your phone:

- Covid Alert
- Canada Covid-19

The following apps do not share your personal information, they only use your location setting to help notify people as well as yourself to certain areas of potential positive cases.

Full disclosure: As I continue to teach, I will be sanitizing and cleaning every surface that I am in contact with, and will be wearing PPE to ensure the safety of all students. If at any point you do not feel comfortable, please notify me immediately and we can discuss further distanced learning techniques.

Thank you for your participation!
